

**I/O Master station**  
**MS ECT-SM12-0008-A**

### Interface

IO-LINK version	1.1
Network interface	EtherCAT
Auxiliary interface	8*IOLINK
Digital input port	16*PNP,3 type
Digital output port	16*PNP
Interface class	CLASS A

### Indication

Switch function	Yellow
IO-LINK communication	Green
Sensor power supply(US)	Green
Actuator power supply(UA)	Green
Fault	Red

### Mechanical parameters

Diameter	230*64.1*20mm
Fastener	Fixed by 2-hole bolts

### Materials

Housing material	Zinc alloy die casting
Encapsulating material	Black epoxy

### Working environment

Ambient temperature	-25~70°C
Storage temperature	-40~85°C
Protection degree	IP67

### Electrical connection

Ethercat interface	Female, M12*2, 4pin, CLASS D
Power input interface	Male, 7/8" ,5pin
Power output interface	Female, 7/8" ,5pin
IO interface	Female, M12*8, 5pin, CLASS A
Contact surface protection	Nickel/gold plated

### Packing accessories

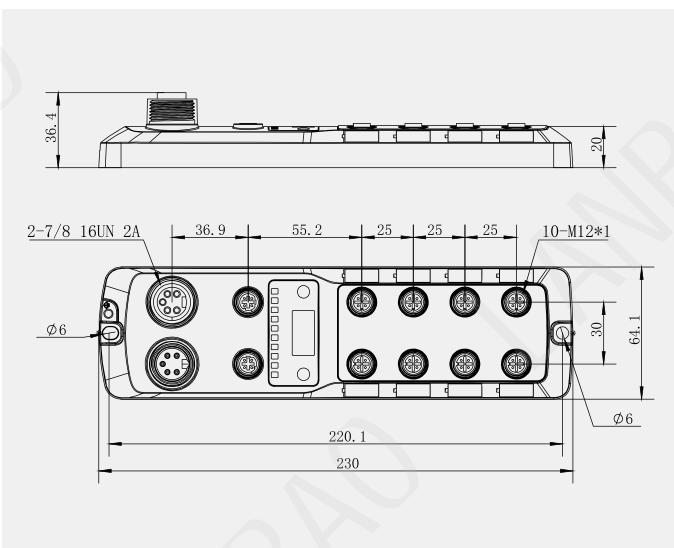

Nameplate (12x)	
Blind plug (8x)	
Instruction	
Bolts M5*2	

### Certification

CE
UKCA

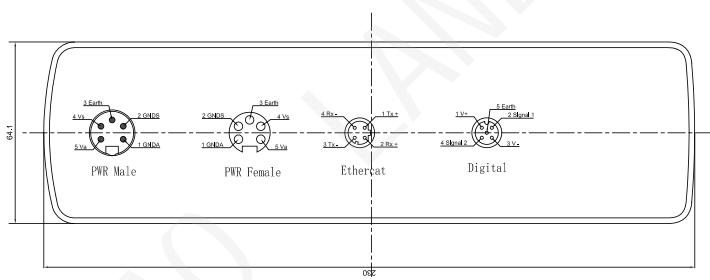

UK  
CA  
CE

### Electrical parameters

IO-LINK function	Master device
Configurable input/output port	Yes
Supply voltage	18~30Vdc
Total actuator current(UA)	8A
Total sensor current(US)	8A
Fault alarm	Output/power short circuit/power undervoltage
Maximum output current of a single channel	2A

### Connector Drawings

PWR Male

PWR Female

Ethercat
